PROFESSIONAL EXPERIENCE

Junior Web Developer   Sep 2023 - Present
Fexkod, Colombo, Sri Lanka
- Developed user-friendly websites using HTML, CSS, and JavaScript.
- Implemented server-side functionalities using PHP and interacted with MySQL databases for dynamic content.
- Created and customised websites using Content Management Systems (CMS) like WordPress and Wix.
- Provided technical support and maintenance for existing web applications

Intern Software Engineer   Mar 2023 - Sep 2023
Fexkod, Colombo, Sri Lanka
- Gained experience in web development fundamentals using HTML, CSS, JavaScript, PHP, and MySQL.
- Assisted senior developers in various web development projects.
- Adopted a collaborative approach to problem-solving, actively seeking guidance from senior developers and discussing potential solutions.
- Attended weekly team meetings to stay updated on project progress and participated in code reviews to learn from others' approaches.

EDUCATION & CERTIFICATIONS

- Higher Diploma in Computing & Software Engineering (Undergraduate)
  Cardiff Metropolitan University, UK

  Aug 2023 - May 2025

- Diploma in Information and Communication Technology
  ICBT Campus, Sri Lanka

  Mar 2023 - Aug 2023

PROJECTS

Smith Concrete
https://www.smithsconcrete.com
Technology stack: WordPress with Elementor, MySQL and PHP

Designed and developed a professional business website for Smith Concrete using WordPress and Elementor. Customised page layouts and components to effectively showcase concrete products and services. Integrated PHP and MySQL for enhanced functionality and content management. Ensured responsive design and an optimised user experience across all devices.

Odyssey Education

https://odysseyeducation.co.uk

Technology stack: HTML, CSS, JavaScript

Designed and developed a responsive, modern website for Odyssey Education using core web technologies. Focused on delivering a clean user interface and intuitive navigation to promote the client's educational services. Implemented interactive elements using JavaScript to enhance user engagement. Ensured full cross-device compatibility and performance optimisation for a smooth browsing experience.

Blue Sapphire

https://www.bluesapphirepropertyservices.com.au

Technology stack: Wix with Cart Functionality

Built and customised an e-commerce-enabled website on the Wix platform for Blue Sapphire Property Services. Focused on creating a visually appealing and easy-to-navigate layout to highlight cleaning and property maintenance services. Integrated cart functionality to support service bookings and streamline the user checkout process. Ensured responsive design and seamless user experience across all devices.

Owl Tuition Studio

https://owltuitionstudio.ch

Technology stack: HTML, CSS, JavaScript, PHP

Developed a fully responsive and interactive website for Owl Tuition Studio to showcase educational services and facilitate student engagement. Utilised HTML, CSS, and JavaScript for the front-end structure and interactivity, and PHP for backend functionality, including dynamic content handling and form processing. Focused on performance optimisation, accessibility, and clean code structure to support scalability and easy maintenance.
